June 2022 ~ Sponsorship Prospectus

# Compute Singapore Sponsorship Prospectus

## What is Compute Singapore?

Compute Singapore is competitive programming competition for teenagers in Singapore. Students are provided with a set of logical problems / puzzles that they must then write a computer program to solve. Their program shall be able to accept inputs and then output a correct response as per the problem's specifications. Points are provided for each correct solution.

## Why support the challenge?

We seek to promote enthusiasm in Computer Science amongst teenagers across Singapore, it is an ever growing field and one that we believe you should be exposed to at a young age. Right now, only a small amount of schools provide Computer Science courses so it is up to us as individuals to pursue that interest. We the Compute Singapore Team want to aid aspiring coders in realising their passions. This competition is a social experience, a competitive experience, a fun experience, and most importantly a learning experience. With your support we can achieve our goal of inspiring teenagers across Singapore to pursue Computer Science.

# Sponsorship Tiers

## **Silver Sponsor**

**\$250**

As a Silver Tier sponsor, your logo and company name will be featured on our website and in the opening ceremony. You'll be able to distribute swag or promotional material to attendees.

## **Gold Sponsor**

**\$500**

As a Gold Tier sponsor, your company will be promoted through our social media and in emails to attendees. You'll also be able to send mentors to the event to discuss your product with students during the dinner session.

## **Title Sponsor**

**\$1,000**

“Presented by [Your Company]” will be featured on all promotional materials / press releases and you'll be provided with five minutes of the Opening Ceremony. Alongside this, you'll have all the benefits of a Silver & Gold tier sponsor.

## **Can't find a tier for you?**

Email us at [computesg@gmail.com](mailto:computesg@gmail.com) and we'll develop a custom sponsorship plan with you.
